LEVEL

PREREQUISITES

Stage B: Water Exploration	In this stage, parents work with their children to explore body positions, floating, blowing bubbles, and fundamental safety and aquatic skills.
Stage 1: Water Acclimation	Students develop comfort with underwater exploration and learn to safely exit in the event of falling into a body of water in stage . This stage lays the foundation that allows for a student's future progress in swimming.
Stage 2: Water Movement	Students focus on body position and control, directional change, and forward movement in the water while also continuing to practice how to safely exit in the event of falling into a body of water.
Stage 3: Water Stamina	In this stage, students learn how to swim to safety from a longer distance than in previous stages in the event of falling into a body of water. This stage also introduces rhythmic breathing and integrated arm and leg action
Stage 4: Stroke Introduction	Students in this stage develop stroke technique in front crawl and back crawl and learn the breaststroke kick and butterfly kick. Water safety is reinforced through treading water and elementary backstroke. Students in this stage focus on the following: Developing the front crawl and back crawl. Introducing components of the breaststroke and butterfly. Practicing safety techniques in deep water.
