

SUPER SCIENCE CAMP

Super Science Camp will ignite the scientific potential of every camper and encourage campers to maximize their curiosity with our unique STEM-based curriculum. Campers will explore outrageous science themes in a small group project based format. This hands-on camp experience will encourage campers to explore the scientific excitement of the world around them and come up with creative ideas for the future! STEM challenges and group project competitions will leave our hungry scientists wanting more leading into the school year!

THE FORCE IS WITH US

Session 1

Dates: June 4-15

The force is strong at Y Science Camp! Come star-hop through space while discovering new life-forms and planets with our Y space team. Space-aged science activities and out-of-this-world craft projects will have campers controlling the force in no time.

Field Trip: Rebounderz

WIZARDS AND MAGIC

Session 3

Dates: July 2-13 (No camp July 4)

While wizards and magic are often considered imaginary, those creations somehow come to life in film, art, and other forms of media. The science behind illusions, magic phenomenon, and other bizarre creations will leave campers wanting to discover more!

Field Trip: Scandia

DEEP SEA EXPLORERS

Session 2

Dates: June 18-29

The great depths of the our oceans provide limitless adventure and discovery during our Deep Sea Explorers session. Campers will be able to research the unique creatures that inhabit our oceans and experiment with aquatic-based science projects.

Field Trip: Pt. Reyes

STEAM CAMP

Session 4

Dates: July 16-27

S.T.E.A.M. (Science, Technology, Engineering, Art, and Math) camp has all of the principles of imagination, exploration, collaboration, and design. Engaging group projects and experiments involving all sorts of tools, blocks, and resources will keep campers minds sharp all Summer long.

Field Trip: Epicenter Bowling

WILDLIFE SURVIVAL

Session 5

Dates: July 30-August 10

Wildlife Survival will explore the biology and chemistry of the wildlife world around us. Counselors will show campers how we play a part in protecting the wildlife around us. Outdoor learning and unique experiments in nature will keep campers intrigued with the wild outdoor world around them.

Field Trip: Snoopy's Ice
